3,750,000 SLV available 1 ETH = 750 SILVERBIT

2.0 Introduction

Welcome to SilverBit. This document will outline how to purchase SILVERBIT with ETH during the Token sale and check your balance of SILVERBIT.

This guide contains step by step instructions on how to buy SILVERBIT via MyEtherwallet or Metamask, along with instructions on how to verify your SILVERBIT balance with MyEtherwallet, Metamask, or Etherscan. Included are screenshots demonstrating how to buy SILVERBITS with ETH and how to check your SILVERBIT balance.

3.0 How to buy SILVERBIT

Purchasing SILVERBIT is an easy one step process. Send at least a min if 0.1 ETH to the SILVERBIT address provided on Buy Tokens page of silverbit.co website. The address you sent ETH from will receive SILVERBIT within 24 hours and once the transaction is confirmed.

SILVERBIT Address to send ETH to will be provided to you at <https://silverbit.co/buy-tokens/>

If you need help sending Ethereum from your wallet, this guide goes through details and screenshots on how to send Ethereum from MyEtherWallet and Metamask.

3.1 How to buy SILVERBIT with Metamask

1. Begin by adding the Metamask chrome extension to your browser and create an account if you have not already. Here is the link:

<https://metamask.io/>- Click "Get Chrome Extension"

2. The installation and account setup process is described at:

<https://www.cryptocompare.com/wallets/guides/how-to-use-metamask/>

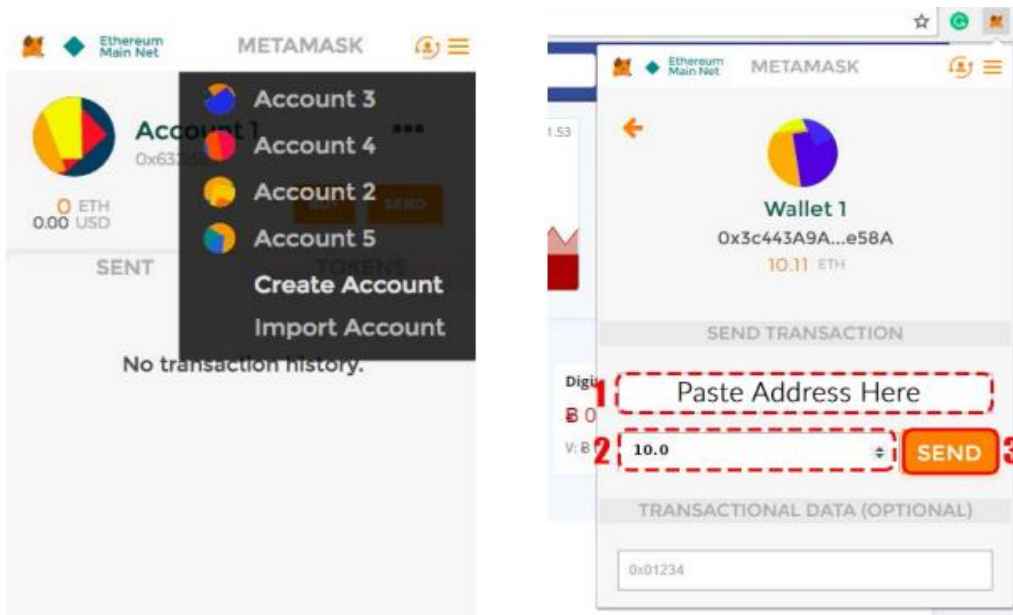

3. Set your MetaMask Client to the main Ethereum network by clicking the dot in the top left of the plug-in window. It should be a green diamond with the words 'Ethereum Main Net' next to it.

4. Create or choose an existing account and create an account. Alternatively, you can import existing an account via the upper menu. This account will be sending funds to the SILVERBIT contract and receive SILVERBIT Tokens.

5. Make sure your account is funded.

6. Navigate to the "Send" tab, input the SILVERBIT address provided to you at Silverbit.co and the amount you wish to send.

Finally press the send button. You will receive your tokens SLV within 24 hours.

3.2 How to buy SILVERBIT with MyEtherWallet

1. Go to <https://www.myetherwallet.com/> Be sure to verify the security certificate is present in the URL bar at the top as shown below.

2. Go to the 'Send Ether & Tokens' tab and select a method to access your wallet.

This would be used if you are not using Metamask but have another wallet or want to use your private key.

Or you can easily create a new wallet and send your Ether to it from an exchange such as Coinbase, Poloniex etc...

3. Copy and paste the SILVERBIT address in the 'to address' This is the address provided to you at Silverbit.co.
4. Enter the amount of Eth you want to send.
5. Set Gas Limit to 200000 or more to ensure transaction is completed quickly. Any unused gas will be returned to you.
6. Click generate transaction.
7. Click Send

SEE BELOW SCREENSHOT

The screenshot shows a web interface for generating a transaction. At the top, there is a 'To Address' field containing the text 'PASTE ADDRESS HERE'. Below it is an 'Amount to Send' field with the value '5' and a small 'ETH -' button to its right. Underneath is a 'Gas Limit' field with the value '200000'. A link '+Advanced: Add Data' is visible below the gas limit field. At the bottom of the form is a dark blue button labeled 'Generate Transaction'.

4.0 How to check your SILVERBIT balance via MyEtherWallet

1. Navigate to <https://www.myetherwallet.com/> Be sure to verify the security certificate is present in the URL bar at the top as shown in the screenshot below:
2. Click "View Wallet Info" on the navigation bar and choose a method to unlock your wallet:

The screenshot shows the 'Send Ether & Tokens' section of the MyEtherWallet interface. On the left, under the heading 'How would you like to access your wallet?', there are several radio button options: Keystore File (UTC / JSON), Ledger Wallet, Metamask / Mist, Mnemonic Phrase, Private Key (which is selected), and TREZOR. Below these is the text 'Parity Phrase: No longer supported'. On the right, there is a section titled 'Paste/Type Your Private Key' with a corresponding text input field.

3. Once you have successfully unlocked your wallet you should see a screen like the one below:
4. Select the custom token option and input the following values:
 - a. SILVERBIT **Contract** Address provided at Silverbit.co
 - b. Token symbol: SLV
 - c. Decimals: 8
5. Press the 'Save' button to display your token balance.
